About us

SCEPTRE MEDICAL, a trusted name in healthcare and hygiene solutions since 2010. As a leading manufacturer, supplier, and exporter, we provide reliable products that support hospitals, clinics, and healthcare businesses across India and international markets.

Our range includes medical devices, antiseptic and disinfectant solutions, and wet wipes, all designed to help maintain clean, safe, and hygienic environments consistently. With a strong focus on quality, safety, and innovation, we ensure that every product meets high industry standards and delivers dependable performance.

At Sceptre, quality and trust are at the core of everything we do. Our experienced team follows precise manufacturing processes, stringent quality checks, and efficient delivery systems to ensure consistent results for our clients. We are committed to transparency, prompt communication, and building long-term partnerships based on reliability and service excellence.

Your hygiene and healthcare needs deserve dependable solutions, and we are here to serve them with professionalism, care, and efficiency.

OUR PRODUCTION FACILITY

Manufacturing wipes, disinfectants, antiseptics, medical devices & cosmetic requires stream-lined production units, well-equipped high-end machines and skilled teams. Our manufacturing units located in Sonipat, Haryana, are spread across a massive area of 1,00,000 sq ft. with the facility of class 10000 clean room. To ensure high-quality output and hassle-free production, we have streamlined the manufacturing process of producing wet wipes and liquid formulations into five simple steps:

1. Consultation

At Sceptre, you get a 360° support and consultation on all your queries regarding your product under one roof- right from conceptualizing to packaging. If you have the vision, we have the technology and workforce to accomplish it efficiently and quickly for you.

2. Formulation

As soon as we receive your requirements, our qualified and highly experienced team of R&D comes up with the best ingredients and blends for your product.

3. Production

Our colossal manufacturing plant equipped with advanced machinery enables us to take up production demand of any capacity under any given deadline.

4. Quality Check

We invest a considerable amount of time and resources in checking the quality of our products. Every product manufactured at the Sceptre Medical facility has to go through several levels of quality check. Our sharp-eyed Quality Control team alongwith built-in quality control mechanisms guarantee consistency, adherence to specifications, and the highest product standards.

5. Packaging

We let our clients choose from a wide range of packaging options, including Cross-fold, Canisters, Flow Packs, Single Tissue, Refill Pouches and many more. We also expertise in manufacturing cleaners and disinfectants having a range from 100ml to 5 liters bottles.

6. Microbiology Laboratory

Expertise in Microbial Detection and Identification

Our Microbiology Laboratory is dedicated to providing accurate and reliable detection and identification of microorganisms. Equipped with cutting-edge technology and staffed by experienced professionals, our laboratory offers comprehensive microbiological testing services for precise results.

Our Certificates & Licences

Medical Devices

A well recognized manufacturing unit

Sceptre manufacturing plant has been built in compliance to the laws articulated by the Ministry of Corporate Affairs, Government of India. We had to go through various legal checkpoints established by the Indian government to be able to produce such an extensive collection of cosmetic/pharmaceutical products at such a massive scale. We, at Sceptre Medical, believe in transparency. Here are some of the major licenses our company has earned.

Pet Care Wipes

Anyone with a pet at home is well aware that pets are prone to infections. Even an insignificant cut on your pet's skin can develop into a contagious infection. Our wipes are specially designed to gently clean and freshen your pet's coat, paws, ears, and skin between baths. Enriched with skin-friendly ingredients, they help remove dirt, odors, and everyday impurities, keeping pets clean, comfortable, and well-groomed.

Key Highlights: Waterless Sanitizing Effects, Alcohol Free, Paraben Free, eliminates germs, Skin Friendly pH, easy to carry.

Rinse Free Shampoo Cap

Decontamination Shampoo Cap

Pre-moistened cap with a specially formulated cleansing and decontamination solution to assist in the removal of contaminants from hair and scalp. It provides a convenient, waterless method for maintaining hygiene in healthcare and emergency care settings.

Why Choose Us?

A one-stop solution for all kinds of medical wipes, cosmetic wipes, & liquid formulations.

Since its inception, Sceptre Medical has embarked upon its journey of producing top-notch quality medical wet wipes, cosmetic wipes, and liquid formulations with a vision of a clean and green environment. We use biodegradable materials that leave no trace on the planet after usage. We have mastered the art of manufacturing high-quality medical and cosmetic wipes and liquid formulations in the most cost-effective way that our peers can never offer. We offer a variety of services right from research to the final production and packaging of the product. Our undivided dedication and unmatched capabilities have helped us to gain the trust of our consumers and clients. Let's join hands to give consumers a hygienic lifestyle without damaging the environment.

B2B Collaboration

Collaborate with us for a cleaner and greener world.

We, at Sceptre Medical, are always willing to work with businesses that share our values and work ethics. Our ultra-modern manufacturing facility and competent workforce enable us to fulfill any kind of requirements when it comes to producing medical wet wipes, cosmetic wipes, and liquid formulations at large scales. Besides, the state-of-the-art machinery makes production cost insignificant when compared to the top-notch quality of the product. Over the years, we have had the privilege of working with some international and domestic brands who prioritized service over revenue. If your business holds the same values, we are here to help.
